

Update your NTRCA Profile

CHECK YOUR PROFILE

Our website has a searchable database, and every member has their own web page on the site where customers can check you out. Make sure your listing is up to date.

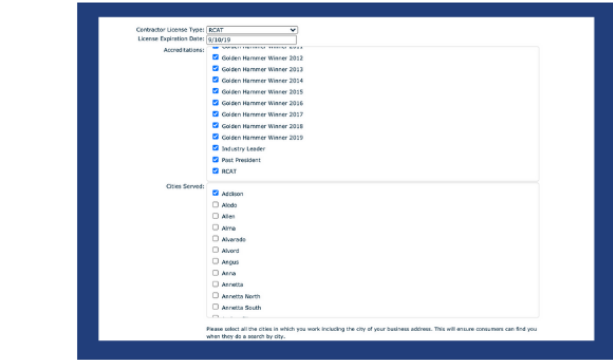

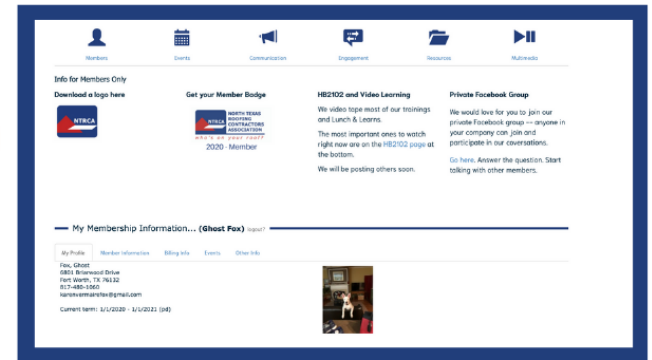

SEARCH FOR YOURSELF

Customers can search for you by company name, the cities you serve, the kinds of work you perform, and the certifications you have. It is up to you to keep these up to date!

LOG IN AND UPDATE

You will see this screen when you log in. You can update your basic information, change your logo, add employees and change how clients search for you.

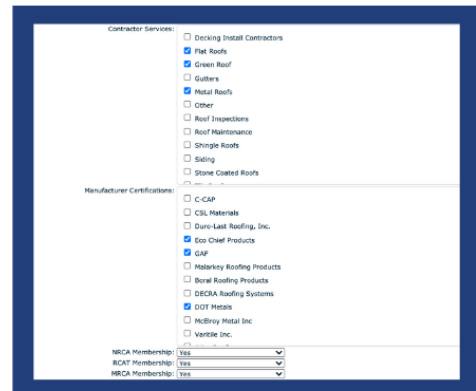

ACCREDITATIONS & CITIES

List all the cities in which you work and select the awards you have won. You can also show you are an accredited member -- yes, we do check these for honesty!

SERVICES & CERTIFICATIONS

Check the various services you provide and update your certifications -- you can list the products you use and your memberships in other organizations.

Check out NTRCA.com to edit your profile -- your email is usually your user name. If that doesn't work, call Lisa at 817.734.8373 or send her an email at membership@ntrca.com
